VS2056 Folder Sealer

- The **VS2056** is a fully automatic pressure sealer which provides the ultimate tabletop solution for processing pressure sensitive one-piece mailers.
- Designed with ease of operation and efficiency in mind, the **VS2056** automatically detects and adjusts for 11", 14" and 17" forms. It features 5 pre-programmed standard folds for even panel C, V, Z and uneven/eccentric C and Z folds. It also has the ability to store up to 35 custom fold settings with the simple touch of a button.
- The **VS2056** utilizes a drop-in three-roller feed system which produces dependable feeding of forms with no paper fanning required.
- Forms are processed at speeds up to 16,450 per hour, and are output to an integrated telescoping conveyor with automated nip roller positioning, capable of holding up to 500 processed forms.
- The monthly duty cycle is up to 200,000 forms. The large 2.8" (71mm) backlit LCD display and user-friendly control panel allow for untrained operators to walk up and start processing pressure seal forms with little to no instruction.
- The **VS2056** advanced software allows for all standard fold types and paper sizes to be customized to meet your particular needs.

Integrated Telescoping Conveyor System: Conveyor can be set between 14" (356mm) and 36" (915mm) in length and holds up to 500 folded pieces
